SUBJECT: 2004 POST LANGUAGE PROGRAM DIRECT FUNDING - KUWAIT

REFTEL: STATE 260769

¶1. Post wishes to continue the momentum of the 2003 Post Language program and expand the program in to two tiers: Beginning and Intermediate. The primary users are still those who have not had the opportunity to formally study the language. The Intermediate class will include Officers, Specialists and Marine Guards who have had some beginning training at FSI or here in country. The Intermediate class will use a different book and audio cassette. In addition the one-on-one tutoring has been beneficial when requested. End Summary.

¶2. Proposal. A mentor/teacher will work with the Assilsilah-Arabic for Foreigners workbooks and audiocassettes along with material from Kuwait daily living, including newspapers, magazines, menus, etc, to provide lessons to beginning Arabic speakers twice a week. Additionally using a more advanced workbook and audiocassette level will develop an intermediate class at the minimum of once a week. One-on-One tutoring will be available as needed. In addition the teacher may use software for learning Arabic writing one-on-one at a computer station, or with the projector available in the language room. The teacher will continue to be available for questions about pronunciation, grammar and dialect specific to Kuwait and Gulf Arabic in general.

¶3. Cost. Based on local rates, and the current pay schedule, Post estimates that a one-year cost for providing guided study will be approximately USD 6,500. This figure includes the cost of 2X to 3X weekly, on-site classes by the teacher (USD 5,500), purchase of beginning study guides for new students, and the start up purchase of the intermediate study guides (USD 700), and additional software copies and miscellaneous expenses to cover supplemental teaching materials as needed (USD 300).

¶4. Background notes. The Post language program has been a success here, and is a huge morale booster for employees, marines and EFM's who otherwise have received no Arabic training. Tension continues in the region and the more our assigned personnel use basic Arabic skills in the local community is greatly appreciated. As we develop an intermediate level class we can reach even more personnel with minimal cost.
